### PENGEMBANGAN SISTEM INFORMASI KEPEGAWAIAN BERBASIS *FRAMEWORK CODEIGNITER* DI UNIVERSITAS KHAIRUN TERNATE

**Kata Kunci** : Sistem Informasi, Kepegawaian, (Framework CodeIgniter).

(xii + 42 + lampiran)

Pengembangan sistem informasi kepegawaian berbasis framework codeigniter sudah mulai banyak dikembangkan, namun masih terdapat beberapa pihak yang memiliki banyak kekurangan dalam mengelola dan mencapai suatu informasi yang dibutuhkan didalam server.

Pada pengembangan sistem informasi kepegawaian ini dirancang dengan menggunakan source code dengan bahasa pemograman PHP 7 dengan metode recerch and development (R&D) dan menghasilkan sebuah prototype sistem informasi kepegawian bebasis framework codeigniter.

Sistem informasi kepegawaian SIP Unkhair yang dikembangkan menghasilkan beberapa firtur yang sistemnya user friendly dan mudah digunakan yang sudah berhasil dikembangkan yakni data pegawai, pangkat, jabatan, pendidikan, penghargaan, status pegawai, golongan, satuan kerja, pelatihan, status jabatan, unit kerja, dan gaji.

## ABSTRACT

**MEYRISKA R SANGAJI**

### **DEVELOPMENT OF PERSONNEL INFORMATION SYSTEM BASED ON CODEIGNITER FRAMEWORK AT KHAIRUN UNIVERSITY TERNATE**

**Keywords:** Information Systems, Personnel, (CodeIgniter Framework).  
(xii + 42 + attachments)

The development of a staffing information system based on the codeigniter framework has begun to be widely developed, but there are still some parties who have many shortcomings in managing and achieving the information needed on the server.

In the development of the personnel information system, it is designed using source code with the PHP 7 programming language with the research and development (R&D) method and produces a prototype of the staffing information system based on the codeigniter framework.

The SIP Unkhair staffing information system that has been developed has produced several user-friendly and easy-to-use features that have been successfully developed, namely employee data, rank, position, education, awards, employee status, class, work unit, training, position status, work unit, and wages.
