

## **ABSTRAKSI**

Nur Junisa Samuda (2022) Dampak Fluktuasi Inflasi Domestik dan Kurs Matauang IDR-USD Terhadap Suku bunga BI 7 *Days Reverse Repo*. Dengan komisi pembimbing: Zulkifly Waibot, S.E., M.Si dan Muhammad Hasnin, S.E., M.E

Penelitian ini mencoba untuk menganalisis dampak dari fluktuasi inflasi dan kurs matauang IDR-USD pada penetapan besaran digit basis poin sukubunga BI7DRR. Jenis data penelitian adalah data kuantitatif sekunder berupa *time series* bulanan dari periode Agustus 2016 hingga April 2022, sehingga didapati jumlah data yang diolah sebanyak 69 periode bulanan.

Model penelitian menggunakan regresi berganda dan dianalisis menggunakan aplikasi software Eviews 10. Hasil penelitian secara parsial, Fluktiasi Inflasi Domestik memiliki pengaruh signifikan dengan pola hubungan yang positif. Fluktuasi kurs mata uang IDR/USD mempengaruhi suku bunga BI7DRR dengan pola hubungan yang positif. Dan secara simultan Inflasi Domestik dan Kurs Mata Uang IDR/USD berpengaruh terhadap Suku Bunga BI7DRR.

**Kata Kunci:** *Sukubunga BI7DRR, Inflasi Domestik, dan Kurs Mata Uang IDR/USD*

## ***Abstraction***

Nur Junisa Samuda (2022) The Impact of Fluctuations in Domestic Inflation and the Currency Exchange Rate of IDR/USD on BI 7 Days Reverse Repo Rate. With the supervisory commission: Zulkifly Waibot, S.E., M.Si and Muhammad Hasnin, S.E., M.E

This study tries to analyze the impact of fluctuations in Domestic Inflation and the currency exchange rate of IDR/USD on the determination digit poin of BI 7 Days Reverse Repo Rate. The type of research data is secondary quantitative data in the form of monthly time series from August 2016 to April 2022, so it was found that the amount of data processed was 69 monthly periods.

The research model uses multiple regression and is analyzed using the Eviews 10 software application. Partially, the results of the study show that Domestic Inflation Fluctuations have a significant effect with a positive relationship pattern. The fluctuation of the exchange rate of IDR/USD affects the BI 7 Days Reverse Repo Rate with a positive relationship pattern. And simultaneously Domestic Inflation and the Currency Exchange affect the BI7DRR Interest Rate.

**Keywords:** BI 7 Days Reverse Repo Rate, Domestic Inflation, and Currency Exchange Rate of IDR/USD
