This study aims to determine first, how the history of legumes in the city of Ternate, secondly the factors that influence the dynamics of legumes in the city of Ternate. The method used in this research is the historical method. And the rarities in the historical method are divided into four namely heuristics, source criticism, interpretation and historiography.

Meanwhile, the data collection technique was carried out by documentation and library studies. In accordance with the research problems, firstly, the legu gam tradition carried out by the people of the city of Ternate is the culmination of the traditional sultanate event which is marked by kololikie, and reading the prayers and mantras according to the method to narrate the history of the occurrence of the formation of the sultanate of Ternate with its conquered areas.

The legu gam tradition, which is carried out based on the sultanate's customs, is a remnant of ancient animist beliefs. The legu gam tradition carried out by the people of Ternate is a tradition carried out on the basis of najar or the intention of the Sultanate of Ternate in carrying out the legu gam tradition which has its own meaning for the people of the city of Ternate until now it is still preserved. To commemorate the birthday of Sultan Mudaffarsyah.

Keywords: Gam Legu and Ternate Society.
