

ABSTRACT

Asma Wati Rumatela, 2021. Sicial Conflict in the Novel “Six of Crows” By Leigh Bardugo. (Supervised by Bakhtiar Majid. and Sunaidin Ode Mulae.)

This study aims to describe the social conflicts that occur in the novel "Six of Crows" By Laigh Bardugo, and the impact of social conflicts between groups in the novel "Six of Crows". The approach used in this research is the Sociology of Literature approach. The method used in this research is the sociology of literature research method. Data collection techniques in this study were Reading Comprehension, Classification and Interpretation.

The results of the analysis found that there are three types of social conflicts which include conflicts involving social position, conflicts of interest and role conflicts. In the novel Six Crows by Leigh Bardugo, tells the journey of six people, namely Kaz, Inej, Nina, Matthias, Jesper and Wilan. They have a mission to save a scientist who creates a drug that can control Grisha and has a very dangerous effect. They are paid to kidnap the scientist by a merchant with a large fee because the risk in the mission is very dangerous, lives are at stake so the pay must be commensurate with the risk they accept. Due to the high pay, there are several groups that are interested so in carrying out the mission, they are attacked by several other groups.

The researcher concludes that social conflict occurs in the human environment, and conflict is also a fact of life so that sooner or later everyone will face it at the same point in life and the impact of social conflict described in the novel has an impact on each person or group in conflict as happened. to Kaz Breker who must survive alone to take revenge for the death of his brother.
