*Riswandi Umasugi NPM. 03071611100 (2024). **Reading Interest of PPKn Study Program Students in the FKIP Unkhair Library in 2022/2023.** Under the guidance of supervisor I Hasmawati S.Ag., M.Pd. And supervisor II Dr. Wahyudin Noe S.Pd., M.Pd.*

This research is based on the background that education is the most important thing in human life, this means that every Indonesian has the right to receive it and is expected to always develop in it.

The objectives of this research are 1. To find out the interest in reading of PPKn study program students in the FKIP Unkhair library. 2. To find out the forms of support and obstacles to reading interest of PPKn study program students in the FKIP Unkhair library.

The data analysis used is data collection, data presentation, and drawing conclusions. The results of the research can be described as 1. Reading interest of PPKn study program students in the FKIP Unkhair library. 2. Supporting and inhibiting forms of reading interest of PPKn study program students in the FKIP Unkhair library. Forms that influence interest in reading, namely, the availability of library facilities and infrastructure, the number of types of reading that are liked will increase students' interest in reading. The forms of obstacles to reading interest in students of the Civics Education Study Program in the FKIP Unkhair library are basically influenced by internal and external forms. Internal forms include low student interest in reading, limited personal book collections, and low levels of student visits to the library. Meanwhile, the external form consists of the availability of book collections, as well as the variety and quality of books in the FKIP Unkhair library.
