

ABSTRAK

Mohammad Faiq, 2023. Analisis Perbandingan Nilai Perusahaan Sebelum dan Saat pandemi Covid-19 Pada Perusahaan sektor Transportasi dan Logistik. Ketua komisi : Dwi Yana Amalia Sari Fala. Anggota komisi : Iqbal Muhammad Aris Ali.

Penelitian ini bertujuan untuk menganalisis perbandingan nilai perusahaan sektor transportasi dan logistik sebelum dan selama pandemi COVID-19 di Bursa Efek Indonesia. Dengan menggunakan data keuangan terkini dari perusahaan-perusahaan terdaftar, penelitian ini mengevaluasi perubahan signifikan dalam nilai perusahaan selama periode pandemi. Metode analisis yang digunakan melibatkan perbandingan kinerja keuangan, rasio-rasio finansial, dan indikator nilai perusahaan sebelum dan selama pandemi. Hasil penelitian menunjukkan adanya perbedaan yang signifikan dalam nilai perusahaan sektor transportasi dan logistik, dengan faktor-faktor tertentu yang mempengaruhi perubahan tersebut selama pandemi. Temuan ini memberikan wawasan penting bagi para pemangku kepentingan dalam memahami dampak pandemi COVID-19 terhadap nilai perusahaan di sektor tersebut, serta memberikan dasar bagi pengambilan keputusan strategis di masa depan. Dimana dapat dijelaskan dengan lebih rinci terdapat Penurunan Pendapatan dan Laba. Selama pandemi COVID-19, sektor transportasi dan logistik mengalami penurunan pendapatan dan laba akibat pembatasan perjalanan, penurunan permintaan, dan ketidakpastian ekonomi.

Kata kunci: Covid-19, Nilai Perusahaan

ABSTRAK

Mohammad Faiq, 2023. *Comparative Analysis Of Company Value Before And During The Covid-19 Pandemic In Transportation And Logistics Sector Companies.*

Ketua komisi : Dwi Yana Amalia Sari Fala. Anngota komisi : Iqbal Muhammad Aris Ali.

This research aims to analyze the comparison of company values in the transportation and logistics sector before and during the COVID-19 pandemic on the Indonesian Stock Exchange. Using the latest financial data from listed companies, this study evaluates significant changes in company value during the pandemic period. The analytical method used involves comparing financial performance, financial ratios and company value indicators before and during the pandemic. The research results show that there are significant differences in the value of companies in the transportation and logistics sector, with certain factors influencing these changes during the pandemic. These findings provide important insights for stakeholders in understanding the impact of the COVID-19 pandemic on the value of companies in the sector, as well as providing a basis for future strategic decision making. Where it can be explained in more detail, there is a decrease in revenue and profits. During the COVID-19 pandemic, the transportation and logistics sector experienced a decline in revenue and profits due to travel restrictions, decreased demand and economic uncertainty.
